

Lab Men

How many events & agitations
have rolled over the universe
since I saw thee! What
contrast between the hunger of
the mind & body on this poor
scurrying toad ball. Carlyle
has finely traced their course
in his recent part of Schiller's
& just read - yet he inspired the
idea of "Littles"? Ah could he have
had his spiritual eye opened he
would not have made the pub-
lick the god of his hero - Littles
we have been theadder to help
poetics & Heaven. God send the
German a piece biographies.
What is powerful & the god of
gift & genius if fame is power

is but a secondary moment ~~the~~
thing short of immortal ^{time}
present & future always
minerals" said J. Reynolds. Noon
The hour air was ~~stirred~~ with
red & purple faded into emotions
like those caused by a Chinese
quiver to the look to bird nests
potatoes & cornets. Yet it was
the weakness of my own mind
that could not divert itself of
soured & associative it had to
its youth this the theory paths
of and yet wholesome struggle -
which may have broken in to
the very wasting waitings of
age. Nor do I the more cause
your impetuous under the help
zeal of that true ~~existence~~ - something.
I began the note by liking to re-
turn to the little epilogues you made

on the lost ~~mind~~ nest of thinking
about it. I understood it & was pleased
- not that you'd ever think of it.
for what I said
Oh we shall one day think
& what thoughts! Shall I re-
pent that the remembering up
the best ^{good} virtues of Christianity would
be tedious because in a poor style

I fear there is a note
from you - thank you. I
have had better hours
with this. this week than
ever - something escaped me
wh I'll tell you.
